

Universal Beams

Various Standard Lengths

Metric Designation	Size mm x mm	Mass kg/m	Metres per tonne
150 UB	150 x 75	14.0	71
150 UB	155 x 75	18.0	56
180 UB	173 x 90	16.1	62
180 UB	175 x 90	18.1	55
180 UB	179 x 90	22.2	45
200 UB	198 x 99	18.2	55
200 UB	202 x 133	22.3	45
200 UB	203 x 133	25.4	39
200 UB	207 x 134	29.8	34
250 UB	248 x 124	25.7	39
250 UB	252 x 146	31.4	32
250 UB	256 x 146	37.3	27
310 UB	298 x 149	32.0	31
310 UB	304 x 165	40.4	25
310 UB	307 x 166	46.2	22
360 UB	352 x 171	44.7	22
360 UB	356 x 171	50.7	20
360 UB	359 x 172	56.7	18
410 UB	403 x 178	53.7	19
410 UB	406 x 178	59.7	17
460 UB	454 x 190	67.1	15
460 UB	457 x 190	74.6	13
460 UB	460 x 191	82.1	12
530 UB	528 x 209	82.0	12
530 UB	533 x 209	92.4	11
610 UB	602 x 228	101	10
610 UB	607 x 228	113	9
610 UB	612 x 229	125	8

Typical Uses:

- Engineering Construction
- Residential Construction
- Non-Residential Construction
- Mining Infrastructure
- Transport and Storage
- Manufacturing

Features:

- Meets AS/NZS 3679.1:2016
- Up to 20% stronger for better strength to weight ratios
- Requires no special pre-heating for welding

Structural Processing

InfraBuild Steel Centre can offer processing for Structural Steel sections using a variety of machinery including Beamlines, Band Saws and Cambering Machines.

Applications include: Straight cuts, pack cuts, mitre cutting, drilling and cambering.

Call your local branch to discuss your requirements
